

# THE AMOVEO ADVANTAGE

wise move

DISTRIBUTED BY:

## DESIGN

Amoveo is recognised for contemporary, architect-designed features. Whether a unit is tailored for luxury or functionality you can be sure of its quality construction and exceptional use of space. Select one of Amoveo's plans or customise!

## DURABILITY

Amoveo's units are robust. Under the modern façade and the interior design is a solid steel structure. Stringent thermal, chemical and structural testing results in a remarkable longevity. Adherence to regulations and guidelines is constantly managed by Amoveo.

## COMPLIANT

Amoveo's units are designed to meet relevant BCA and OH&S requirements. Excellent thermal and acoustic insulation is included in all dwellings. Units are designed to achieve Cyclone Ratings for Region D. Specific local or company regulations can be achieved through customisation.

## HIGH-QUALITY MANUFACTURE

Amoveo project manages and supervises all stages of production including design, documentation, procurement, manufacturing and delivery. Units are designed to Amoveo's specifications. Amoveo's large-scale manufacturing partners have an unrivalled manufacturing capacity and there is a 12 - 15 week turn-around time from the approval of production drawings. Manufacturer management systems ISO 9001 and 14001 are in place.

## DELIVERY

Amoveo can deliver to remote areas. Units are designed for easy transport by road, rail and ship.

## COST-EFFECTIVE

Amoveo's modular solutions are becoming increasingly popular for a wide range of uses because of the cost-savings associated with quick installation and reduced on-site labour.

## REMEMBER

- A range of customisation options available to personalise your product
- Different sizes available, to tailor to your specific needs
- For larger projects, completely new custom designs can be developed
- Amoveo's Sales Consultants can develop a solution to meet your needs
